

Nostalgic AC parts Buy In program:

All automotive based retailers should qualify for the following purchase programs. We are using a “buy-in” type program to prevent the one time purchaser from receiving a discount that our best dealers deserve. We also use a “buy-in” program to show our true dealers that we, as a company, are serious about our dealer program. Our dealer program consists of two tiers.

TIER 1 dealer details and requirements:

- Discount of 15% on all air conditioning products, and 10% on tools and compressor mount brackets
- \$2000.00* initial purchase
- \$6000.00 account maintenance for 12 months after the initial purchase is made
- If a tier 1 customer reaches \$10,000.00 in purchases in one year they will be automatically moved into our tier 2 dealer status.

TIER 2 dealer details and requirements:

- Discount of 20% plus 5% on all air conditioning products, and 10% on tools and compressor mount brackets.
- \$4000.00* initial purchase
- \$10000.00* account maintenance for 12 months after the initial purchase is made

TIER 3 dealer details and requirements:

- Discount of 30% on all air conditioning products, and 10% on tools and compressor mount brackets.
- \$8000.00* initial purchase
- \$15000.00* account maintenance for 12 months after the initial purchase is made

* The buy in can be done with one purchase, or we will combine purchases within one year to reach the buy in. IE: Three purchases equal the buy in amount to receive the discount for that tier.

Stocking dealers

NAC has another program to help our dealers. We offer dealers that want to stock inventory for resale a set price on specific components. This program is designed to provide a low price for dealers that would like to compete at shows, and in their local market. The prices are setup on a set amount that is lower than the Tier program.

Stocking dealer details and requirements:

- To qualify for the stocking dealer program you must be a tier 2 dealer.
- Pre-set price that is lower than the Tier 2 discount on a/c components such as: Condensers, compressors, hose kits, driers, duct hose, and switches.
- Proprietary products made from abs by our vacuum forming facility.
- Minimum quantities required per part when ordering
- 20% off all March Performance products

NAC distributes components to many different businesses. Some of our best customers are companies that sell at car shows and out of their retail locations. We have set the stocking dealer program up to help these companies stay competitive while making a larger profit. The program is for businesses that are interested in purchasing a larger quantity of individual parts for inventory. At NAC we do not feel it is necessary for any company to overpay for a/c components.

Tier 1, 2, and stocking will receive the same discount of 10% on the following products:

- Tools
- Engine Brackets
- Miscellaneous hardware
- Transmission coolers

What Nostalgic AC Parts provides to our dealers.

- NAC will handle all of the technical assistance and warranty issues direct with the customer if you choose for us to do so.
- Full online and phone technical assistance support.
- Product marketing and advertising.
- Online dealer listings (for stocking and tier 2 dealers)
- Tier 1 and tier 2 dealers will be listed as an installation center for NAC on our website.
- Access to all the products offered by Nostalgic AC Parts.
- Updates and information on all new products developed and released by NAC.

An application must be filled out to become a dealer. Terms of payment are credit cards, business check, and net 30 accounts upon approval.

Prices for dealers do not include shipping cost. The purchaser is responsible for all shipping cost. We can ship on your account or ours and bill you the exact shipping rate.

Proprietary parts for dealers are available. We make many different plastic parts for our customers ranging from door panels to cooler inserts. We will gladly give you a quote on molding a part that you would like to distribute. Contact us for more information on this service.

Inquiry

Prices are subject to change. All prices are based on our retail cost displayed on our websites. Dealers will receive their respective discount from any Nostalgic AC Parts website.
